Subject: Partial Approval of Amended Notice of Intention to Commence Large Mining Operations, Desert Hawk Gold Corporation, Kiewit Mine, M/045/0078, Tooele County, Utah

Dear Mr. Havenstrite:

The Division of Oil, Gas and Mining has reviewed the amendment to the Kiewit Notice of Intention to Commence Large Mining Operations (Notice) submitted on October 7, 2014. The majority of the amendment is complete and approved, but one paragraph needs to be modified:

Page 1 of the Notice, paragraph 3, notes the two small mines that have now been included in the large mine Notice. Please reword that the Yellow Hammer and Herat permits are now incorporated into the Kiewit Notice. Please submit this revised page by October 31, 2014.

The Tooele County Conditional Use Permit will be added to Appendix XVII. A stamped copy is provided for your records. The revised reclamation cost estimate will be reviewed after the above changes have been completed and concurrence is received from the BLM. Please keep your Notice current by submitting changes using Form MR-REV-att, which is located on the Division's web site at [ogm.utah.gov](http://ogm.utah.gov).

The approval of the amendment does not relieve an operator from his responsibility to comply with the applicable statutes, rules, regulations, and ordinances of all local, state and federal agencies with jurisdiction over any aspect of the operator's mining operations.

The Division again reiterates the conditions included in the approval letter dated February 21, 2014:

1. Mining at the Clifton Shears will not exceed 20 feet in depth until the operator has completed additional rock characterization.

Page 2 of 2

M/045/0078  
October 14, 2014

2. No mining may be done at the Yellow Hammer until the operator has completed rock characterization.
3. Mining at the Kiewit will include rock characterization as committed to in the NOI.
4. Backfilling and grading reclamation bond monies will not be released until the heap leach draw down has been completed.

The Division and Desert Hawk Gold have agreed that inconsistencies exist in the Notice of Intention to Commence Large Mining Operations (Notice) and that any inconsistencies that impact regulatory authority decisions will be decided by the Division. The following additions and corrections are needed:

Thank you for your cooperation in finalizing this permitting action. Please call Leslie Heppler at 801-538-5257 if you have any questions in this regard.

Sincerely,

Paul B. Baker  
Minerals Program Manager
